Dear Mr Smith

THE WASTE MANAGEMENT LICENSING REGULATIONS 1994  
LANDSPREADING OF WASTE AT COMPTON

At their September meeting Compton and Shawford Parish Council discussed the matter of spreading sewage/sludge on land at Bushfield Farm, Yew Tree and Attwoods Drove Farms, Compton.

Councillors expressed grave concerns about the long-term effect. Why inject such substances, as described in your letter dated 13 July, 1999, on land close to human habitation and on land which naturally drains towards the settlement? It is considered totally anti-social behaviour.

This Parish Council request that the Environment Agency ask Hampshire County Council not to permit injection near habitation.

Yours sincerely

Mary S Davis (Mrs)  
Acting Parish Clerk
